ABOUT ME

Dynamic web developer with a user-centric approach. Strong problem-solving and collaborative skills, delivering high-quality solutions. Thrives in fast-paced environments and embraces continuous learning.

WORK EXPERIENCE

Full-Stack Developer (Volunteering)   Nov 2022-present

The Butterfly Button

The Butterfly Button is helping anyone who has experienced domestic violence reach every victim and aggressor.

- Developed a complete web application for data processing, analysis, and visualization.
- Designed user-friendly interfaces to optimize user interaction and minimize errors.
- Utilized React.js, JavaScript, Node.js, and Firebase (Cloud Firestore and Authentication API).
